Foreword

The MOETE launched Egypt's reform vision for the development of education, and the process of developing curricula comes at the heart of this vision. The implementation of this vision was heralded in 2018, starting with the kindergarten stage in its first and second grades, with the aim of continuing until the end of the secondary stage.

This vision endeavored to make major transformations in the teaching and learning processes, where there is a transition from acquiring knowledge to producing it, and from learning skills to employing them both in specific learning situations and in the general life of the learner outside the classroom. Our curricula also integrate values that contribute to the establishment of our society—values which pose as a protective fort for our homeland. Egypt's reform vision for curriculum development also aims to take into account the specifications of pre-university education graduates, as well as the challenges Egypt faces locally, regionally, and globally. The developed curricula are intended to foster a citizen who is capable of engaging in civilized conversations and positive dialogues with the other, in addition to acquiring digital citizenship skills.

In this regard, the MOETE extends its gratitude and appreciation to the Central Administration of Curriculum Development. It also extends its thanks and gratitude to Longman Egypt and York Press for their active participation in the preparation of this book. Gratefulness also goes to all the Ministry's experts who contributed to the enrichment of this work.

This transformation of Egypt's educational system would not have been possible without the significant support of Egypt's current president, His Excellency President Abdel Fattah el-Sisi. Overhauling the educational system is part of the President's vision of "rebuilding the Egyptian citizen" and it is closely coordinated with the Ministries of Higher Education and Scientific Research, Culture, and Youth and Sports. The new educational system is only a part in a bigger national effort to propel Egypt to the ranks of developed countries, and to ensure a great future for all of its citizens.

The General Administration for Planning and Formulating Curriculum

Words from the Minister of Education and Technical Education

Dear students and fellow teachers,

It gives me great pleasure to celebrate this crucial stage of comprehensive and sustainable development, an epic in which all Egyptian people are taking part. This pivotal stage necessitates paving a foundation for a strong educational system which yields a generation that is not only capable of facing the major challenges the world is witnessing today, but one that also has complete possession of the skills of the future. For this reason, the Egyptian state is keen on empowering its citizens by establishing a top-notch educational system that invests in its children the expertise required to get them to compete at both a regional and global level, at a time when the world is witnessing successive industrial revolutions.

This dictates that our educational system has at its core an emphasis on skills development, deep understanding, and knowledge production. This can only be done through modern curricula that keep up with the changes taking place globally-- curricula which prioritize the development of skills and values, and the integration of knowledge. They are also curricula that focus on the provision of multiple learning sources, and integration of technology to enrich the educational process and to improve its outcomes, while addressing the most important contemporary issues.

To achieve this, we must all join hands to continue to revolutionize our education, and to support it with all that is required to transform it into a globally pioneering educational system.

My warmest regards to you, dear students, and my deepest gratitude to my fellow teachers.

Professor Doctor Reda Hegazy
Minister of Education and Technical Education

Scope and sequence

	Unit	Vocabulary	Language	Phonics	Life skills	Values	Issues and challenges	Integrated cross-curriculum topics
How the world works	5 My food	apple, date, egg, nut, orange, strawberry, grapes	I like (oranges). Me, too!	f: four, flag, flower s: strawberry, star, school Identifying the last letter in a word	Participation: We like to give Communication: Show and tell Problem solving: Finding a problem and suggesting solutions	Respect: Let's say thank you! Independence: Show and tell	Community participation: Shopping Preventative health: Healthy eating	Science: Healthy food Project: A healthy food plate
	6 Let's visit the zoo	camel, elephant, giraffe, lion, monkey, snake	What's that? It's a (giraffe).	e: elephant, egg, exit O: orange, olives, on	Communication: Show and tell	Empathy: We care for animals! Curiosity: Explore new sounds!		Science: Animal habitats
Communication	7 My toys	ball, balloon, car, doll, robot, teddy bear, blue, green	Where's my (robot)? Look, here it is. Thank you.	a: ant, apple r: robot, rabbit, ring Identifying the middle letter in a word	Communication: Show and tell Participation: Let's share!	Participation: Let's share!	Community participation: Playing together	Math: Counting (5-10) Art: A teddy bear
	8 Let's go shopping	cap, jacket, sweater, shorts, skirt, T-shirt	Put on your (cap). I can do it!	c: cap, car, cat j: jacket, jump Identifying the last letter in a word	Self-management: I can get dressed Communication: Show and tell	Self-management: Let's get dressed!		Math: Counting (1-10) Art project: A paper doll
